Broadband Data	Unlimited	Unlimited	Unlimited	Unlimited

INFORMATION ABOUT THE SERVICE

Your Service plan includes:

- home broadband on the NBN network for your internet service

The details of the Service are set out in the table above

Service availability

The Service is not available to all areas, homes or customers. While we perform preliminary qualification checks upfront for service availability, the type of service offered may be subject to further qualification checks to determine what is available at your location. If we are unable to connect your Service, we will attempt to contact you to discuss further options. If we can't contact you or cannot agree to a suitable substitute service, you may cancel your order free of charge.

If you're seeking to acquire the Service using 'Fibre To The Basement' technology, and NBN Co equipment is not installed in your building, an NBN Co technician will require access to the communications infrastructure in your building. You will need to notify your building manager to ensure they have access.

If you are renting a premise, you will need to seek approval from the owner in order for the installation to go ahead.

Minimum term

24 months

Your home broadband allowance

Unlimited

Broadband Speed

The Basic 12Mbps broadband service offers down speed up to 12Mbps.

Our Boost 25Mbps provides down speed up to 25Mbps, Boost Up 50Mbps provides down speed up to 50Mbps and Boost Max 100Mbps provides down speed up to 100Mbps into the home. These speeds exceed the capabilities of some content servers.

You can increase the speed of your service by purchasing a Speed Boost and you can do this any time during a month. Once you purchase a Speed Boost, you can decrease the speed of your service after the 1st of the next month, but only twice per calendar year.

We note that actual speeds may be slower and will vary due to a number of factors including network technology, hardware and software configuration, source and type of content downloaded, and the number of connected devices. Devices connected by Wi-Fi may experience slower speeds than those connected by Ethernet cable.

Please note, once you are connected to a service on the NBN, you won't be able to move to the Telstra copper network.

INFORMATION ABOUT PRICING

Your minimum monthly charge and total minimum plan cost

Refer to the table above for your monthly charge and the minimum amount you'll pay over 24 months based on your plan.

Installation and set up costs

To sign up with Bvivid on the NBN, you must be in an area which is serviced by the NBN network. If NBN Co's equipment is not already installed in your home, we'll organise with NBN Co for a technician to install that equipment without charge.

You'll also be sent a Self-Installation Kit (SIK) which includes a Wi-Fi modem and which you will have to install yourself to receive your broadband service. The activation fee of \$99 includes the cost of the Wi-Fi modem. Our standard Wi-Fi modems are suitable for most NBN installation types. In the instance that your NBN access type is incompatible, the activation charge may vary.

If you're in a new development or newly constructed building and not already connected to the NBN network, NBN Co may charge \$330 to connect your premises to the NBN network. If applicable, we will bill that charge to you.

Standard installation does not include internal cabling, infrastructure or technical support visit. If a technical support visit is required the charges are \$132 for the callout plus \$132 hourly rate. These charges are inclusive of GST.

Billing

We will bill you in advance for the minimum monthly charge and features. Your first bill will include charges for part of the month from when you signed up to your plan until the end of that billing period, as well as the minimum monthly charge in advance for the next billing period. Our billing period starts on the 1st of every month. You can keep track of your usage online by signing in to your Bvivid account on our website at www.bvivid.com.au.

Payment Processing and Credit Card Charges

If you pay by BPay savings or direct debit from a bank account there are no processing fees. Payments made by credit card will incur a surcharge, Mastercard and Visa 1.60%, Amex 3.6%, plus on-line service fee. \$5.45 fee may be charged each month If you choose not to pay your bill by direct debit. Please contact Customer Support to set-up direct debit

Paper invoice fee

There are no charges for email or online billing. Paper bill fee of up to \$4.25 will be charged each month if you choose to receive a paper bill. Please contact Customer Support to arrange online billing or to request an email bill.

Early cancellation of your Service

If you cancel your Service, you will not be eligible to receive a refund on any fees that you've already paid to us.

If you cancel your service after activation but before the Minimum Term has ended, you'll be charged an Early Termination Fee (ETF) up to the maximum amount of \$299. The ETF decreases each month you stay on the plan.

If you require your Service to be moved to a different area, you'll need to restart your term to avoid any ETF. If the Service isn't available in the area to which you would like it moved, your Service will be cancelled and an ETF will apply.
